

Abandoned by ATC while on approach?

You're flying in busy airspace and center seems to have more traffic than it can keep up with. You finally get a vector for your approach but then your neither hear from them again nor can get a word in edgewise to them. What do you do? Discussion of a video scenario showing a real-life interaction to ATC for an approach to a busy airport.

Directions: Conference Room

A message from the National FAASafetyTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
